Small Black Spruce Bog with nearby hiking trails.
Large white cedar swamp, good bird habitat.
Slate and dune feature in unusual area.
Ledge outcrop with Indian rock shelter.
Unusual stone fireplaces along back woods of W. Greenwich.
Scenic gravel and unpaved road and colonial transportation route.
Heavily managed wildflower preserve.
Furnishing spring with extensive wetland.
Scenic location along Congdon River, old mill site.
Site for rare orchids.
Cedar swamp along Kelley Brook, scenic area.
Exceptional wildflower site in white pine stand.

Small scenic waterfall on Moshantucket Brook.

Scepic Coastal Rock Outcrops JV Bay Island.
Exposed rock on coast with vista, biologically valuable.
Small sulphur spring on east shore of Conanicut Island.
Extensive salt marshes and tidal creek.
Valuable salt marshes on mid bay Island.
Excellent site for unusual starfledite crystals.
Highly significant Indian burial ground.
Very active boiling spring, private water supply.
Active boiling springs in dense woodland.

A shallow salt pond periodically open to sea. Excellent bird habitat.
Large salt pond, very valuableyster spanning ground.
Site for unusually large oyster beds.
Large undeveloped oyster bed refuge. Portion is recreation area.
Shoreline rock outcrops and rock islands.
Small salt pond and beach.

Natural chasm in a conglomerate cliff.
Large stand of white hardwoods with beech predominating.
Large conglomerate outcrop with cliffs, unusual vegetation forms.
Large conglomerate outcrop with excellent vista.
Shoreline of large stones that rumble loudly during high surf.
Extensive federally owned salt marsh area.

Trail along rocky coast, large tourist attraction, vista points.
Scenic drive along rocky coast on southern end of Aquidneck Island.

HIGH POINT OF ISLAND, EXCELLENT VISTA IN ALL DIRECTIONS.
LARGE INDIAN BURIAL GROUND IN RELATIVELY GOOD CONDITION.
SMALL BUT VALUABLE MARSHLAND ON ISLAND NOTED FOR BIRD LIFE.
ROCK OUTCROPS ON SHORELINE CONTAIN CRETACEOUS FOSSILS.
ACTIVE BOILING SPRING ON BLOCK ISLAND.

RAVINE WITH BROOK FLOWING THROUGH, GOOD FOREST AREA.
SMALL FIVE ACRE ISLAND, IMPORTANT BIRD HABITAT.
RAVINE IN SMALLE BEDS, BROOK WITH WATERFALL, MIXED FOREST.
LARGE HIGHLY FLORIDA SAND PLAIN. COMMANDING VIEW OF BAY.
SALT MARSH WITH BARRIER BEACH. GOOD BIRD HABITAT.
WELL DEVELOPED STAND OF BEECH TREES AND RHODODENDRON PATH.
LARGE UNDERDEVELOPED AREA POSSESSS WILLY SALT MARSHES.
SLATE OUTCROP ON SHORE WITH GOOD FOSSILS. ASBESTOS OUTCROP.
SCENIC COASTAL ROCK OUTCROP WITH VISTA OF SARONNET RIVER.
ENDANGERED SALT MARSHES IN LARGE SALT CAYE.
IMPORTANT MARSH ON WEST SIDE OF COMMON FENCE POINT.
SITE OF OLD COAL MINE ON WEST SIDE OF AQUIDNECK ISLAND.

EXTENSIVE SALT MARSH, HIGH VALUE AS SPawning GROUND AND WILDLIFE PRESERVE.
LARGE SALT MARSH, VERY VALUABLE SHELFISH SPawning AREA.
SMALL BROOK FLOW ROCKY RAVINE, SURROUNDING WOODLAND RICH.
AREA SUPPORTS ONLY RATTLE SNAKE POPULATION IN R.I. VERY REMOTE AREA.
VERY SCENIC COLONIAL TRANSPORTATION ROUTE AND TRAIL SYSTEM.
HISTORIC SITE WITH EXCEPTIONAL VIEW OF SARONNET RIVER.
SMALL BUT VALUABLE AUDUBON SALT MARSH.

EXTENSIVE AND WELL DEVELOPED BLACK SPRUCE / LARCH RING.
LARGE BDG. LARGE NUMBER OF DR-EO SPECIES AND OTHER VEGETATION.
SITE FOR UNUSUAL PLANT COMMUNITY ALONG SCENIC BROOK.
AREA IS SITE FOR THE RARE CLIMBER LAND.
BLACK SPRUCE/LARCH BDG. RELIC, OTHER UNUSUAL PLANTS AND ANIMALS.
FINE STAND OF WHITE PAPER BIRCH.
LARGE WHITE CEDAR SWAMP WITH RHODODENDRON AND BROOK.
SMALL BDG WITH LARGE NUMBER OF ORCHIDS.
SITE FOR UNUSUAL FERN.
RELATIVELY UNDISTURBED ROADSIDE MINERAL SITE.
LARGE IMPRESSIVE ROCK LEDGES WITH MAGNETITE CRYSTALS.
LARGE UNSUAL BASALT OUTCROP IN RESIDENTIAL AREA.
SITE FOR THE UNUSUAL OSTRICH FERN.
VALUABLE WETLAND ALONG CENTER ROAD IN STATE MANAGEMENT AREA.
HERNDON SWAMP ALONG SML BDG.

OLD INDIAN SOAPSTONE QUARRY, Vista. ACTINOLITE CRYSTALS.

**Brook and Waterfall Along Old Mill Site**

- Large bluff of vein quartz, many recreational use, many minerals,
- Large abandoned iron quarry operation, site of state rock,
- Site of several minerals including uranium ore,
- Roadcut for Rte. 134 contains Danahite crystals
- Old copper mine containing a variety of mineral types
- Site of many minerals, high hill along scenic road.

**Excellent Bird Habitat on Salt Cove in Upper Bay**

- Large many-reservoir with high wildlife value
- Whiter water stretch on ten mile river
- Site for Devonian fossils
- Dense white pine and hemlock woods.

**A Very Large, Active, Undisturbed, Natural Boiling Spring**

- Large black spruce sphagnum bog
- Site for unusual herbaceous vegetation
- Large and active natural boiling spring
- Intensive hemlock swamp with brook, also old stand of red pine
- Scenic gravel road along reservoir, ledges and coves
- Unusual garbag outcrop in old pasture
- Large Indian rock shelter
- Dense growth of snagcrank hickory trees
- Site for the uncommon ostrich fern
- Scenic gravel road in rural area
- Area contains relatively pure stand of tulip trees
- Small scenic woodland brook with hemlock
- Valuable wildlife marsh in scenic location

**Very Remote Whit Cedar Swamp with Rhododendron, Wildlife Habitat**

- Floating bog mats on large pond, unusual vegetation & wildlife
- Well-developed mesic forest, unique vegetation
- Site of rest stand of bigleaf maple in state
- Large rock outcroppings contain unique plants, unusual wildlife
- Remnants and wild areas, pure stand hemlocks, good wildlife bog
- Very mature and well-developed hemlock/mixed hardwoods
- Stand of unusually large hemlocks
- Site of unusual plant, the striped maple
- Small, productive cranberry bog
- Site for unusual orchids
- Small tract of mature hemlock
- Mysterious sod mounds or muts south of Podonssett Reservoir
- Scenic bog perch in valley area, rhodora, swamp azalea, bayberry
- Small but highly scenic brookside woodland
- Very extensive and remote woods and ledges, unusual vegetation
- Extensive trail system in large state park
- Scenic gravel road in rural area
- Excellent boiling spring in scenic hemlock wood setting.
