### (Transaction Confirmation)

This Transaction Confirmation ("TC") is entered into pursuant to and in accordance with a Participant Agreement executed on \_\_\_\_\_ by and between **CONSTELLATION NEWENERGY, INC.** ("Supplier") and **City of Warwick** ("Participant"), and is subject to all of the provisions, terms and conditions of such Participant Agreement. Notwithstanding anything to the contrary, any conflict between this TC and the Participant Agreement will be resolved in favor of this TC, but only with respect to the Account(s) listed on this TC. This TC supersedes all prior agreements and understandings with respect to the Account(s), and may not be contradicted by any prior or contemporaneous oral or written agreement. Capitalized terms used herein but not defined will have the meanings ascribed to them in the Participant Agreement.

**Price Terms.** The electricity rate Participant is paying is stated in the Account Schedule below. The Contract Prices contained in the Account Schedule include all the costs listed below as "Fixed", meaning that they will remain constant for the existing term of this TC and may only be subject to change as a result of a Change in Law as described in the Participant Agreement, provided, however, Participant's overall electricity bill may fluctuate monthly depending on Participant's usage variations, and whether certain cost components are being Passed Through (as defined below). Costs listed below as "Passed Through" means that charges for these costs will change during the existing term of this TC to the extent the related charges assessed or charged vary for any reason. At any time during the term of this TC, Participant may request the purchase of renewable energy certificates in an amount equal to a prescribed percentage of Participant's load volume by entering into one or more Retail Trade Transactions ("RTTs"), which shall be evidence by a fully executed RTT Confirmation and be incorporated herein.

**Cost Components.** Each of the items listed as "Fixed" below is included in Participant's Contract Prices as set forth in the Account Schedule. For each of the items listed as "Passed Through" below, Participant will be charged the costs associated with the line item in accordance with the definitions of each item in Section 1.1, Definitions or as defined in the Participant Agreement.

Energy Costs	Fixed
Ancillary Services And Other ISO Costs	Fixed
Capacity Costs	Fixed
Line Loss Costs	Fixed
FERC Order 745 Costs	N/A
Renewable Portfolio Standard Costs	Fixed

The contract prices contained in the Account Schedule have been reduced to reflect a fixed credit to Participant for the Auction Revenue Rights and Transmission Loss Credits associated with the Account(s). The prices also include any credit costs and margin.

#### **Section 1.1. Definitions.**

**"Holdover Fee"** means a cost of \$.005250 per kWh in the holdover rate.

**"Renewable Portfolio Standards Costs"** means the costs associated with meeting renewable portfolio standards costs at the levels required by currently applicable Law. If Renewable Portfolio Standards Costs are not included in the contract price, such costs for a particular month will be the product of (i) the Monthly RPS Price; and (ii) an Account's monthly kWh usage. The Monthly RPS Price is the price of renewable portfolio standards compliance for the Account, for a particular month, fixed by reference to the renewable portfolio standards forward price curve for the state where the Account is located.

**"SREC-II Expansion Program Costs"** means any costs or charges related to procuring solar renewable energy or making alternative compliance payments to comply with the Solar Carve-Out II Expansion Program requirements set forth in the Massachusetts Department of Energy Resources ("DOER") Regulations as amended 225 CMR.14.00, effective April 8, 2016 and updated on July 1, 2016. Costs to comply with MA Solar Carve-Out Program(s) I and II, as required by the DOER, are included in Renewable Portfolio Standards Costs.

**"Winter Reliability Program Costs"** means those costs or charges that are incurred by load serving entities in the ISO service territory under the ISO's "Winter Reliability Program" as proposed or implemented during the Term of this Agreement. If Winter Reliability Program Costs are Fixed under this Agreement, any material additions, modifications or conditions to the treatment of Winter Reliability Costs under the ISO tariff or otherwise
